HIGHLIGHTS

The International English Language Testing System (IELTS) measures the language proficiency of people who want to study or work in an English speaking country. It uses a nine-band scale to clearly identify levels of proficiency, from non-user (band score 1) through to expert (band score 9). IELTS Preparatory Course at AI International College (Registration partner with British Council, India) aims to prepare students with the skills and strategies needed to pass the IELTS examination with a higher band score
